

STURM MEMORIAL LECTURE

EXPLORING THE

FRONTIERS

OF SCIENCE AND HUMAN POTENTIAL

Dr. Jemison
—astronaut,
physician, Peace
Corp volunteer,
and dancer—is now
leading the 100 Year
Starship Project. Her
goal is to ensure that all
the capabilities will exist
for a successful human
journey to another star
within the next 100
years. An inspiring
speaker, she will share
her achievements
and the obstacles
she has faced
over time.
