

RockSat-C 2019

Intent to Fly (IFF) Form

DUE BY: September 17, 2018 at 8:00 AM MDT

This form is designed for customers to express interest in the RockSat-C 2019 program. Responses to the questions on this form will be used to gauge interest in the program and establish the allotment of space and resources. The Colorado Space Grant Consortium (COSGC) understands that payload and/or team members will not be fully developed at this stage, but please do your best to fill this form out as completely as possible.

****This is not a de-spun flight and microgravity (~3 minutes) will be affected by spin rate of rocket****

PI Contact Information:			
Name:	Last	Middle Init.	First
Organization:			
Phone:			
Address:	Street		
City, State:			
Experiment Name:			

Experiment Description: <i>(Brief description of purpose and scope of possible missions—if known at time of submittal)</i>

Student Involvement: <i>(Briefly describe student involvement with this project—Class? Senior design? Extra Curricular?)</i>

Do you plan to have faculty, industry, or government involved with your project (Check yes or no)?	Yes		No	
<i>If yes, please explain:</i>				

Do you anticipate the need for high voltage (Check yes or no)?	Yes		No	
<i>If yes, please explain:</i>

Port Request:	
As is described in the RockSat User's Guide, there are a limited number of ports. Teams may request more than one port, but there is no guarantee that all requests can be granted. What type of port(s), if any, would your experiment require (Check all that apply)?	
Atmospheric	
Optical	
Multipurpose	
None	
Other*	
*If other, please specify and note that this request cannot be guaranteed:	

Sharing:	
As is described in the RockSat User's Guide, there is an option to split a canister in half with another customer. It is highly recommended that customers pair themselves, but it is not required. Colorado Space Grant Consortium can pair teams that do not have partners that are not occupying an entire canister. Please indicate below the status of your canister sharing needs.	
Entire Canister	
Share (but have a partners)	Partner
Share (need to be paired)	

Costs and Acknowledgement of Understanding:
We, the above mentioned, have read and fully understand the costs, requirements, and selection process associated with the RockSat payload canister as outlined in the RockSat Payload User's Guide. We also understand that the User's Guide was under revision at the time of the IFF submittal, and we will review the next revision in no longer than one week from its release. We understand that a \$1,000 earnest deposit is due on October 12, 2018 (refundable until manifesting ~January 2019) if we are initially selected. Additionally, the undersigned understands that if selected as a primary customer after final down selections that the team will be responsible for the remaining sum of the program fees as outlined in the User's Guide. The program fee covers the costs for launch and mission management support plus other amenities (some meals and program shirt) provided during the week of launch. The program fee is due in two installments due on 2/11/2019 and 4/1/2019.
