

SAVE THE DATE

ROCKON 2024

REGISTRATION DATES:

November 6, 2023 - February 2, 2024

RockOn! is a hands-on workshop teaching participants how to create a sounding rocket experiment from scratch over a 5-day period and then launching it into space on the 6th day of the workshop. This is a team experience and takes place at Goddard Space Flight Center Wallops Flight Facility on the Eastern Shore of Virginia.

The workshop is designed for college students and faculty. There are no prerequisites for participants. Anything needed to be successful at the workshop will be taught at the workshop. The workshop is scheduled from **June 14 - 19, 2024** with launch expected on **June 20, 2024**. (Please note that June 21, 2024, is the backup launch date.) *We acknowledge that the Juneteenth Holiday occurs during the RockOn 2024 workshop. In honor of this important federal holiday, work on this day will be limited to one optional activity.*

Team size is 3 people (2 students and 1 faculty member). Each team builds one RockOn experiment. All experiments will fly on the rocket and into space. You must sign-up as a community college or university team; no individual registrations will be accepted. Please note that RockOn is limited to 28 teams. Teams will be able to apply up to the deadline, followed by a down select.

Additionally, there will be a version of the RockOn workshop from May 20 - 24, 2024 for MSI Faculty. *For more information on eligibility, visit the NASA RockSat Website.*
